

Ladies and Gentlemen,

“**Happiness in life**” is a term every man and women defines, construes and experiences in a different way – but we all can agree on one thing: the greatest happiness in life is our health. Even though our patients experience a lesser fortune side of life, they look ahead and fight a brave battle day by day to get back a small piece of their **happiness**. It is impressive to see how they face their destiny and at the same time emanate so much confidence; we are proud of having been able to support more than 18.000 children suffering from cancer, heart diseases and cystic fibrosis as well as their parents over the past 23 years and while doing we gave them back strength, optimism and a piece of new **happiness** in life. Not an easy, but for sure a wonderful task, which has only been and only is possible because of the help and dedication of so many companions and friends.

Numerous people have supported us and we are deeply grateful to VEHICLE SERVICE GROUP BlitzRotary GmbH, Bräunlingen, for their donation of 2.500 Euros, which they actually could have had spent on Christmas presents for their clients. We would like to thank Doris Wochner and her team with all our heart for such solidarity to our aftercare clinic, and we wish everyone a healthy 2021 full of happiness!

Thomas Müller
Geschäftsführer

Roland Wehrle
Geschäftsführer

Managing Director Doris Wochner personally handed over Managing Director Thomas Müller the donation and informed herself about the work and the family-oriented concept of the aftercare clinic Tannheim (www.tannheim.de)
